The basis of charges for ships dues and rent shall be the Net Tonnage (NT) as calculated under the provisions of the International Tonnage Convention (1969).

ABP reserves the right to add a surcharge to the dues or rent payable, or to impose an assessment of Net Tonnage for the payment of such dues or rents for any vessel which has not been measured in accordance with the above Convention.

SHIPS DUES

The minimum charge per vessel to be as 500 tonnes or 500 cubic metres, whichever is the charging unit.
6. Seine net vessels will be charged dues on the net tonnage or at 45 per cent of the gross tonnage, whichever may be the lower.

Any subsequent docking or undocking or mooring or unmooring at quay or jetty outside the enclosed dock, will be subject to an additional charge equivalent to 25% of the published ships dues payable, subject to a maximum of £1,164 in the case only of vessels moving solely for dry docking. Vessels will be exempt from this additional charge when the relocation is upon orders given by the Dock Master.
