SECTION 100 LEGAL NOTICES**RULE 100: CONSENT OF TERMS OF TARIFF**

The use of the waterways and facilities under the jurisdiction of Canaveral Port Authority ("CPA"), such waterways and facilities referred to herein as "Port Canaveral" or the "Port", shall constitute a consent to the terms and conditions of this Tariff, and the rules and regulations of the CPA, as the same exist at the time of each such use; and such use shall evidence an agreement on the part of the agents, and other users of such waterways and facilities, to pay all charges specified in this Tariff (unless otherwise provided by written agreement with CPA or reduced/waived as provided herein), and be governed by all of said Tariff terms, conditions, rules and regulations.

RULE 105: GOVERNING AUTHORITY AND JURISDICTION

Governing Authority: The Canaveral Port District is an independent special taxing district and political subdivision of the State of Florida. CPA has jurisdiction over and control of Port Canaveral including all wharves, sheds, warehouses, terminals, slips and upland areas and all other property owned or operated by it. It has the power to fix and regulate rates, charges, rules and regulations for the use of these facilities. The administration, operation and maintenance of Port Canaveral is governed by a duly elected Board of Commissioners and are under the direct supervision of a Port Director appointed by said Board of Commissioners.

Jurisdiction: Jurisdiction for any action whether in law or equity and whether founded in contract or in tort, brought by any user against CPA arising from or incidental to the user's operations on CPA property and/or its use of CPA's services or facilities shall lie exclusively in the Circuit Court of the Eighteenth Judicial Circuit in and for Brevard County, Florida. Use of CPA's facilities or receipt of its services by any user shall constitute that user's consent to jurisdiction and venue in accordance with this Rule and shall constitute that user's waiver of jurisdiction or venue in any other location or forum. This Rule does not apply to any action by any user against CPA which may be instituted pursuant to an Act of the Congress of the United States that expressly designates the jurisdiction in which such action shall be prosecuted, and from which CPA would not have sovereign or eleventh amendment immunity.

RULE 110: APPLICATION OF TARIFF

The rates, rules and regulations contained in this Tariff shall apply equally to all users of and all traffic on the waterways and facilities owned, operated, and under the jurisdiction of CPA; except where inconsistent with express provisions of leases or agreements with CPA for use of facilities. CPA shall be the sole judge as to the application and interpretation of this Tariff and supplements hereto. Fees including, but not limited to, wharfage, dockage, harbor master and line handling may be waived, reduced, or absorbed by the Port Director, if in the best interest of CPA. The Port Director shall also have the authority to implement other changes to this Tariff if it is determined such action is necessary for competitive purposes and/or the efficient use of the facilities. If changes remain in place for a period of twelve (12) months and are expected to remain permanent thereafter, they will be submitted to the Board of Commissioners as a Tariff revision for its approval.

RULE 111: WAIVER OF CHARGES FOR DECLARED EMERGENCY

Upon declaration of an emergency by the President of the United States or the Governor of the State of Florida affecting the State of Florida, or for a natural disaster suffered by another state or country served by shipping line customer(s) of Port Canaveral, the Port Director may reduce or waive dockage and/or wharfage charges up to an amount not to exceed five thousand dollars (\$5,000.00) in support of humanitarian relief efforts where supplies, materials, labor, shipping and related assistance are donated on a voluntary basis or resources are provided at reduced rates by governmental or charitable agencies or organizations.

In order to qualify for a reduction/waiver of dockage and/or wharfage charges, the carrier must furnish a manifest and certified statement as required by [Rule 115](#) identifying those items that qualify for a reduction/waiver. In addition, the Port reserves the right to access documentation and the carrier agrees to comply with all conditions as described in [Rule 1100](#).

RULE 115: VESSEL REPORTS AND CONTROLS REQUIREMENTS

All agents requesting a berth for a vessel at a Port Canaveral commercial wharf shall, as far in advance as possible but at a minimum twenty-four (24) hours prior to docking, submit a Vessel Berthing Request to the Harbormaster specifying the date and time of docking. The request shall include information regarding the approximate date and time of departure as well as the nature and quantity of cargo to be handled. The name, registration, and enrollment of the vessel must be provided. Failure to submit a proper Vessel Berthing Request could result in a delay in the vessel's arrival.

All vessels requesting a Port Canaveral commercial wharf shall notify the Harbormaster of their estimated time of arrival. Deviations or subsequent changes to scheduled arrival times shall also be reported. Such notices shall be given by all vessels as far in advance as is reasonably feasible in order to facilitate ship movements, coordination, and arrangement of port services for incoming vessels.

Agents and vessels requesting use of a Port Canaveral commercial wharf shall contact the Harbormaster upon arrival in order to ascertain the vessel's pre-assigned berth. The Harbormaster shall regulate and supervise the berthing of all vessels.

Full capacity and continuous twenty-four (24) hour vessel operations may be required at the discretion of the Harbormaster in order to facilitate Port operations and efficiency. Refusal or failure to fully comply with a continuous operations request may result in an order for the vessel to vacate the berth.

CPA reserves the right to order a vessel moved from its berth to a more suitable location including anchorage in the event of a disruption of the vessel's power or any other hindrances of its loading or unloading capabilities which impedes the vessel's ability to discharge or take on cargo pending necessary repairs.

CPA shall retain full authority to move or cause to be removed any vessel at any time and for any reason as deemed appropriate by the Harbormaster. The Harbormaster shall have absolute authority to arbitrate disputes and to direct masters, agents, and others having charge of vessels.

Before departing from a Port Canaveral commercial wharf, all vessels shall notify the Harbormaster Office of the vessel's departure time and obtain departure approval. Such notice shall be as far in advance of the actual departure time as is reasonably feasible in order to facilitate vessel movement and coordination; however, all such notices shall be made at least two (2) hours prior to departure.

The Agent, or others having charge of the vessel, shall direct and cause to be reported to CPA's Finance Department all cargo or passengers loaded or discharged from such vessel or passengers in transit for non-homeported vessels. Such report(s) shall be submitted within five (5) business days of sailing or completion of cargo operations and in the form of copies of the ship's manifest, bill of lading or a certified statement providing the number of units, commodities, weights, dimensions (if required) and all other information which CPA deems necessary for the purpose of conducting audits to determine the accuracy of reports filed, compilation of commercial statistics or for other purposes. Failure to provide the requisite reports within the designated time period shall result in a \$25.00 per business day penalty assessed to and payable by the ship's agent unless expressly waived in whole or in part by the Port Director.

Wharfage will be collected on the cargo whether or not it is loaded aboard a vessel. CPA reserves the right to determine billing classification of all cargo. Wharfage charges are solely the charge for using the wharf and do not include charges for any other service. Please refer to Wharfage – Rules and Rates in [Section 700](#) of this Tariff.

ADDENDUM A: INSURANCE SUPPLEMENT

The rates and charges published in this Tariff do not include any amounts for insurance coverage. Insurance required by the owner and/or consignee of cargo to protect their respective interests shall be carried by the owner and/or consignee.

The phrase “Required Policy” means each policy of insurance required to be maintained by user under the terms of this Tariff. Each Required Policy must be placed in writing by a company or companies satisfactory to CPA but in all events by a company or companies having a current A.M. Best Company cease providing such ratings) and be licensed to do business in Florida or, if the aforesaid is not available, by a company qualified to do business as a non-admitted insurer in Florida under current Florida surplus lines requirements.

All persons or companies leasing CPA property and/or conducting business operations on CPA owned land, in accordance with a Permit to Operate granted by CPA, shall be required to provide evidence of insurance coverage. Such insurance must name Canaveral Port Authority as an additional insured and provide waiver of subrogation in favor of CPA on commercial general liability and any excess policies (at no expense to CPA) with the provision that such coverage will not extend to actions resulting from CPA’s own negligence. A certificate of such insurance or certified copy of the insurance policy must be provided to the Finance and Risk Management Department and kept up-to-date in full force and continuous effect throughout the lease, permit or franchise period. The acceptance and/or approval of the company's insurance shall not be construed as relieving the company from any liability or obligation arising out of the work performed by said company.

Insurance requirements and exceptions are authorized by CPA Policy POL-2016-001-RSK-3 – Insurance Requirements.

MEMORANDUM OF UNDERSTANDING
BETWEEN THE
CANAVERAL PORT AUTHORITY
AND
THE NAVAL ORDNANCE TEST UNIT

CONCERNING

SHIP MOVEMENT PRIORITY IN PORT CANAVERAL

I. INTRODUCTION

The commercial shipping interests of Port Canaveral and the operational mission of Naval Ordnance Test Unit (NOTU) are vitally important to both organizations. Because of this fact it is important that a system of ship movement priorities be maintained.

II. PURPOSE

The system of ship movement priorities will facilitate vessel scheduling in and out of Port Canaveral with consideration given to the requirements of each vessel for adherence to an established sailing schedule, pilot or equipment requirements, and/or navigational requirements such as tide restrictions, channel clearance restrictions, or visibility restrictions.

In creating the system of ship movement priorities, both organizations acknowledge and accept the others' reasons for their respective required vessel movement priorities, and that equitable access to Port Canaveral is assured under this system.

III. MAJOR CONSIDERATIONS

In establishing the system of ship movement priorities, these major considerations are recognized by both parties:

1. Emergency ship movements, either military or civilian, require top priority.
2. Because of the requirement of passengers to meet pre-arranged schedules for onward transportation, foreign port berth commitments, and Customs and Immigration clearance, cruise liner schedules are time critical in order to be competitive. This industry is of utmost economic importance to the Canaveral Port Authority and the Central Florida tourism industry.
3. Scheduling of Navy test ships sponsored by NOTU and supported by 45th Space Wing involves precise coordination of the services of many people in many diverse geographical locations. Navy test ships include submarines conducting Demonstration and Shakedown Operations (DASO) with attendant support ships and Navy sponsored ships (surface ships and submarines) conducting special tests critical to the national defense interest. Movement of these naval units in adherence to a scheduled test is mission critical.

ADDENDUM D: MEMORANDUM OF UNDERSTANDING: The Naval Ordnance Test Unit (cont'd)

Memorandum of Understanding

4. Military or civilian cargo vessels may require their movement to be scheduled because of tidal considerations or special labor requirements.

IV. SHIP MOVEMENT PRIORITY

| Priority | Description |
|----------|--|
| 1 | Emergency ship movements necessary to prevent loss of life or limit serious loss of property or to meet other military or civil emergencies. |
| 2 | Scheduled navy test ships (DASO submarines with support ships and naval units conducting special tests) and scheduled cruise liners. |
| 3 | Navy test ships which are off schedule and regular scheduled military ships. |
| 4 | Cruise Liners which are off schedule and regular scheduled civilian ships. |
| 5 | Other military or civilian ships which have time sensitive cargo or operations or have tide restricted movements. |
| 6 | All other vessels on a first come first served basis. |

With respect to implementing the ship movement priority system, the following guidelines are established for both parties:

1. The Canaveral Port Authority Operations will keep NOTU Port Operations up-to-date regarding existing cruise line schedules.

2. For the purpose of ship movement priority, schedules of Navy test ships are considered firm once the unit arrives in Port Canaveral to begin operations. Navy test ships departure times for scheduled underway operations are normally between the hours of 0630 and 0730 with the exception of departure for the launch phase of a scheduled DASO. The departure times for the DASO submarine and launch area support ship are governed by range operational constraints and, therefore, vary with each operation. Canaveral Port Authority Operations will normally attempt to avoid scheduling cruise liners to enter or leave port from 0630 to 0730 when a designated Navy test ship is operating out of Port Canaveral. During the time a scheduled Naval unit is undergoing or supporting Navy tests, it will be assigned a priority 2 status. Should emergent circumstances dictate that a cruise liner or Navy test ship must enter or leave port during the same period, the conflict shall be resolved through liaison between NOTU Port Operations and Canaveral Port Authority Operations to achieve a mutually acceptable arrangement.

ADDENDUM D: MEMORANDUM OF UNDERSTANDING: The Naval Ordnance Test Unit (cont'd)

Memorandum of Understanding
Canaveral Port Authority and Naval Ordnance Test Unit
Page 3

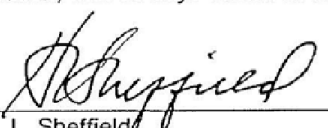

3. Whenever a scheduled cruise liner or Navy test ship gets off schedule by more than thirty (30) minutes, it will lose its priority 2 status and become a priority 3 or 4 as appropriate. Should a conflict arise between movements of a cruise liner and a navy test ship movement priority will be determined by mutual agreement between NOTU Port Operations and Canaveral Port Authority Operations. Normally a higher priority consideration shall be given to the vessel whose estimated time of arrival at entrance to the buoyed channel or estimated time of departure from port occurs first. Unusual situations may infrequently arise where politically important people onboard either off-schedule cruise liners or Navy test ships require immediate entry to or departure from the port. Under these circumstances, a deviation from the priority designation may be necessary. These special situations will be handled on a case-by-case basis between NOTU Port Operations and Canaveral Port Authority Operations.

4. The time separation between ships entering and/or leaving Port Canaveral should be that interval deemed necessary by the Canaveral Pilots Association for the safety of the vessels concerned. Under no circumstances will the arrivals/departures of ships be scheduled such that a meeting situation would occur inside the buoyed channel of Port Canaveral.

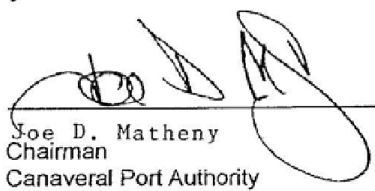

5. In order to meet U.S. Navy Operational requirements a Priority 1 ship movement will immediately go into effect when an emergency involving U. S. Naval Warships requiring immediate departure of a Naval vessel occur. NOTU shall arrange for immediate tug assistance. Should there be any conflict, it shall be resolved through liaison between both parties to achieve a mutual acceptable arrangement.

V. CANCELLATION

This Memorandum of Understanding may be cancelled by either party, for any reason, with 60 days written notice to the other party.
